62. Narrative of Supplemental Report  
**Narrative:** On 11-16-2011 at approx. 0717 hrs., I monitored an emergency radio broadcast of an 11-99 (Officer needs help) and shots being fired at 10406 Indiana Ave., #242. I began responding to the location, but received further broadcasts while enroute that sufficient personnel were at the scene. Within an hour or less, I was notified by Det. Dana that the ROVs' (robots) were being requested to this location regarding a suspect that was possibly armed and barricaded inside. I then drove one of two vehicles that house the ROV's and associated equipment to the aforementioned address. Upon arrival I was directed where to park my vehicle by Lt. Gonzalez. Lt. Gonzalez then told me that the METRO team wanted to get a robot inside the location as soon as possible. I then helped Det. Dana set up one of the ROV's so he could begin the task of getting the ROV inside the location. During that time, I set up the DVR to record footage from the ROV Det. Dana was operating. We were instructed to get the ROV inside the location as quickly as possible and after the ROV was already operating and going toward the apartment, I noticed that the time and date stamp-->

DATE 02-27-12	TYPE OF REPORT 664/187 SUPPLEMENTAL	REPORTING OFFICER Aaron Brandt #268
------------------	--	--

on the DVR (digital video recorder) were off. I also noted that the DVR was keeping time via it's own internal timebase. I did not change the date and time on the DVR because it would reset the recording and alter the evidence, so I let it continue to keep time so there was an accurate reflection of elapsed time on the video although the time displayed did not correlate to the current date or time and so there was not a break in the video footage.

During the rest of the incident, I assisted Officer Anderson in setting up two additional ROV's for backup and additional surveillance platforms to assist Det. Dana in operating his ROV if need be. By the time we had the two additional ROV's set up and headed toward the scene, the event had concluded.

After the termination of the event, I returned to the Lincoln St. Station later that day where I downloaded the video footage of the incident as recorded by the ROV Det. Dana was operating from the DVR to CD roms. The original .rar files were transferred from the DVR onto CD rom and a player was included on the CD rom. I also converted these files to .wmv files for viewing on a wide range of computers, while still keeping the original .rar files unaltered on the disc. This CD rom was then given to Det. Dana who booked it into evidence. The ROV Det. Dana was operating does not currently have an external audio output option, so there was no audio track recorded in the footage.

No additional information at this time.
